Information Technology

PROFESSIONAL SUMMARY

Innovative Full-Stack Developer equipped with a BS in Information Technology and hands-on experience across the entire software development lifecycle. Proven ability to design complex relational databases and secure APIs, paired with expertise in crafting intuitive, state-driven front-end experiences using modern React and TypeScript ecosystems.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, Java

Frontend/Web: React.js, Next.js, React Native, Expo, Vite

Backend & Databases: Node.js, Express.js, FastAPI, DrizzleORM, PostgreSQL, MongoDB, Firebase, Supabase

Tools: Git/GitHub, Postman, VS Code, SQLDBM, npm

PROFESSIONAL EXPERIENCE

Livro Systems Inc. | R&D Intern Developer | Cagayan de Oro, Philippines | January 2026 – May 2026

- Designed scalable database architecture and backend logic using PostgreSQL and DrizzleORM to manage structured academic programs and secure transaction routing for the Skillings platform.
- Engineered an Over-the-Counter (OTC) payment gateway, integrating automated QR code email receipts, real-time promo code validation, and an in-app mobile scanner.
- Developed dynamic Role-Based Access Control (RBAC) dashboards for administrators and authored comprehensive technical documentation, including system ERDs and flowcharts.

TECHNICAL PROJECTS

RideAlert App | Backend and Machine Learning Developer | 2025

- Designed scalable backend logic for the PUV monitoring system to handle real-time user requests.
- Trained and integrated the Machine Learning model, overseeing data cleaning and server-side optimization.
- Established scalable architecture standards and authored detailed technical documentation, including the project user manual.

SmartVote App | Backend Developer | 2025

- Developed a RESTful backend using Node.js and MongoDB, enabling real-time election tracking via Socket.io.
- Secured API endpoints with JWT authentication, bcrypt hashing, and rate limiting to ensure election integrity.
- Orchestrated containerized deployment using Docker to support scalable infrastructure and cross-origin requests.

EDUCATION

University of Science and Technology of Southern Philippines (USTP) | 2022-2026
Bachelor of Science in Information Technology

CERTIFICATES

12th TOPCIT Philippines | 2025
Level 3 Certification

LIVRO Systems Inc | 2026
Certificate of Internship Completion
